30-Juz Khatmah Tracker

A thirty-juz board with a daily log, so you can see the khatmah move.

BEFORE YOU START

How to use this file

A khatmah moves by a steady amount, not by one day of enthusiasm.

1. **Agree a daily amount**
   A quarter or half a juz. Quarters are easier to keep than whole juz.

2. **Colour the juz when done**
   Colour gives visible progress, and the eye likes progress.

3. **Write the date**
   The date turns the board from a picture into a record.

Tips from our teachers

- A fixed time and place beat a large, broken amount.
- If you fall behind, do not double up; start from today.
- Read from the same mushaf each time; switching loses your place.

THE BOARD

Thirty juz

Colour each juz when you finish it, and write the date under it.
